EDUCATION

Bachelor of Science in Information Technology

New Jersey Institute of Technology (NJIT) • Newark, NJ • 4.0 GPA, summa cum laude

WORK EXPERIENCE

Sales Representative

Toms River, NJ • Energy Direct • January 2025 — November 2025

- Generated leads through 20+ daily door-to-door visits selling state-funded LED rebate programs, closing 10+ contracts in five months by qualifying prospects, uncovering pain points, and securing signed agreements for electrical inspections.
- Managed client documentation, scheduling, and communication to ensure compliance with rebate program standards and smooth coordination with electricians.
- Built and launched a lead-generation campaign using self-written flyer copy and Canva designs, achieving an 8% conversion rate from 50 flyers while maintaining a 200+ business pipeline in Excel and CRM tools.

Founder & Full-Stack Developer

Garfield, NJ • Startup Venture Studio • March 2023 — November 2024

- Built four full-stack web products using Next.js, SCSS, JavaScript, and ElysiaJS, deploying REST services on Vercel with PostgreSQL (Neon) for onboarding, lead capture, asset generation, and purchases, automating 80% of manual workflows.
- Developed an AI logo-generation pipeline using OpenAI prompt templating, Midjourney APIs, Node.js, and Sharp to turn uploaded logos into 365 holiday-specific variations, cutting asset creation time by 90%.
- Engineered 3D trade-show lead-generation games with Three.js as iFrame (iPad) apps with client-specific URLs and PostgreSQL-backed onboarding forms for automated attendee capture.
- Built an AI-assisted matching platform that parsed onboarding responses with structured prompts to match companies with vetted partners, reducing manual matching by 70%.
- Recruited and managed 5-member SWE teams across frontend, backend, PM, and 3D asset design, managing 20K+ LOC, Git PR reviews, and weekly Agile standups in Notion and Discord with 100% sprint delivery.

SKILLS

- **IT & Systems:** Active Directory, GPO, Microsoft 365, PowerShell, Bash, Windows Server, Linux (Ubuntu, CentOS), remote desktop tools (TeamViewer, AnyDesk)
- **Networking:** TCP/IP, VLANs, DNS, DHCP, VPNs, Wi-Fi maintenance, Wireshark
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Development Tools:** Git, Visual Studio Code, ServiceNow
- **Programming Languages:** PHP, Java, Javascript, Python, C++
- **Communication & Client Relations:** Prospecting, copywriting, lead generation, needs assessment, client relationship management, negotiation, pain point analysis, objection handling, and stakeholder communication

PROJECTS

Academic Capstone Project, Project Manager

Morristown, NJ • Eco-Enterprise Inc • September 2022 — December 2022

- Led a 5-member team building a PostgreSQL database with indexing strategies and Python in pgAdmin, resolving normalization issues and improving retrieval speed by 30% while running SCRUM sprints, stand-ups, and retrospectives in Trello.
- Identified workflow inefficiencies and wrote a setup guide that reduced onboarding from 17 days to under 6 hours, while delivering KPI reports and presentations in PowerPoint and Notion.
- Awarded Best Overall Project Manager by NJIT for outstanding leadership, planning, and execution.

Active Directory Project

Personal • December 2024 — January 2025

- Automated Active Directory user lifecycle management using PowerShell scripting with Active Directory Service Interfaces (ADSI), reducing manual workload by 90%.
- Configured Remote Access Server (RAS) to support NAT/PAT features, ensuring secure and seamless remote connectivity for 1000+ users.
- Deployed Windows File Servers with quota management and granular NTFS permissions, enhancing data security and storage efficiency.
