SUMMARY

Information Technology (IT) graduate with academic recognition for Agile project leadership. Solid foundation in networking, system administration, and database optimization through coursework and hands-on projects. Skilled in Python, PowerShell, and SQL, and currently pursuing COMPTIA A+ certification.

EDUCATION

Bachelor of Science in Information Technology

New Jersey Institute of Technology (NJIT) • Newark, NJ • Graduated: May 2023 • 4.0 GPA, *summa cum laude*

• Specialization: Management Information Systems (MIS).

SKILLS

- **Networking:** TCP/IP protocols, VLAN configuration, DNS, DHCP, VPNs, Wi-Fi maintenance
- **System Administration:** Active Directory (user provisioning, GPO), Microsoft 365, PowerShell automation
- **Database:** PostgreSQL, MySQL, advanced SQL query optimization
- **Software Development:** Visual Studio Code on Linux platforms, version control with Git, Wireshark, remote desktop (TeamViewer, AnyDesk), ticketing systems (ServiceNow)
- **Operating Systems:** Linux (Ubuntu, CentOS), Windows Server & Desktop
- **Programming Languages:** PHP, Java, Python

PROJECTS

Academic Capstone Project, Project Manager

Morristown, NJ • Eco-Enterprise Inc • September 2022 – December 2022

- Directed a 5-member team to design and implement a PostgreSQL database with indexing strategies and Python, using pgAdmin tools and addressing data normalization issues, boosting retrieval speeds by 30%.
- Managed sprints, daily stand-ups, and retrospectives, ensuring on-time delivery of data pipelines and SQL queries 10% ahead of schedule using SCRUM and Trello.
- Diagnosed inefficiencies in team workflows, including inadequate documentation, and created a detailed setup guide that reduced onboarding time from 17 days to less than 6 hours.
- Delivered detailed progress reports and presentations to CEO, featuring KPIs like query performance and milestone adherence, using Microsoft PowerPoint and Notion dashboards to ensure alignment.
- Awarded Best Overall Project Manager by NJIT for outstanding leadership, planning, and execution.

Active Directory Project

Personal • December 2024 – January 2025

- Automated Active Directory user lifecycle management using PowerShell scripting with Active Directory Service Interfaces (ADSI), reducing manual workload by 90%.
- Configured Remote Access Server (RAS) to support NAT/PAT features, ensuring secure and seamless remote connectivity for 1000+ users.
- Deployed Windows File Servers with quota management and granular NTFS permissions, enhancing data security and storage efficiency.

LEADERSHIP

President, Vice-President, Secretary

Paramus, NJ • Bergen Community College (BCC) • Future Business Leaders of America • September 2019 – December 2020

- Increased enrollment by 50% through persuasive in-class presentations and targeted campus recruitment campaigns, utilizing GIMP and Canva for poster design and Instagram ads for social media outreach.
- Collaborated with Montclair State University and Stevens Institute of Technology on an email lead-generation campaign via Mailchimp, generating 50+ attendees for a leadership event featuring NFL player Shawn Harper.
- Organized and led a free, club-funded trip for 30+ members to the New York Stock Exchange and Federal Reserve, managing logistics and transportation via WhatsApp.
- Gave weekly presentations on project management, financial literacy, and business administration using PowerPoint, receiving praise for clarity and practical takeaways from both peers and members.
- Allocated a \$5,000 semester budget using zero-based budgeting strategies, justifying every expense to maximize funding efficiency for events and initiatives, all approved by the executive board.
